4. Responsibility in School

The Designated Safeguarding Leads (DSL) in the Junior and Senior School takes lead responsibility for safeguarding and child protection, including online safety. In any cases giving rise to safeguarding concerns, the matter will be dealt with in accordance with the School Safeguarding and Child Protection Policy. All serious incidents involving technology must be reported to the DSL and the IT Director will record the matter in the technology incidents log.

The IT Director is responsible for maintaining up to date records in relation to this policy and its implementation. This includes the monitoring and filtering log/reports and the recording of relevant matters in the technology incidents log.

Where a concern to a pupil's welfare is identified, the risks will be assessed, and appropriate action taken to reduce the risks identified. The format of risk assessment may vary and may be included as part of the School's overall response to a welfare issue. The DSLs in each school, as appropriate, have overall responsibility for ensuring that matters that affect pupil welfare are adequately risk assessed and for ensuring that the findings are considered, implemented, and monitored. The DSLs will liaise with the Director of IT in relation to risk assessments under this policy.

The Senior Leadership team review this policy. The Governing Body approves this policy as part of its annual safeguarding review.

5. Record Keeping

The records created in accordance with this policy may contain personal data. Staff must ensure that they follow the Staff Data Protection Policies and procedures and the Information Sharing Advice for Safeguarding Practitioners when handling personal data. Staff should refer to the St Mary's Cloud All staff Data Protection tile. The Privacy Notices relating to pupils and parents are published on the School website.

6. Safe Use of Technology

We want pupils to enjoy using technology in school and to become skilled and confident users of on-line resources and media; we recognise that this is important for their education and future careers. The School will support pupils to develop their skills and make internet access as unrestricted as possible whilst balancing the safety and welfare of pupils and the security of our technology systems. The safe use of technology is integral to the School's curriculum and pupils are educated about the importance of safe and responsible use of technology to help them protect themselves and others online.

Pupils may find the following resources helpful in keeping themselves safe online:

- [CEOP Education](#)
- www.childline.org.uk
- www.saferinternet.org.uk
- mysafetynet.org.uk/

All pupils receive a School account with email. All pupils from year 1 have a username and login details. to enable them to use the School computer system. This enables pupils to access their School email and School resources. These resources include the School Portal. There is a sign in link on the main School website for access from home. Pupils are given guidance on the use of the School's systems and are told that if they are unsure about anything, they must seek assistance from a member of staff.

The School has taken precautions to restrict access to websites and Apps deemed unsuitable for pupils; the list of such sites/Apps is subject to ongoing review and amendment. Pupils are not permitted to use the School system to store games or play games.

For the protection of all pupils, their use of email/the internet will be monitored by the School. The IT Department uses monitoring and filtering software. Pupils should remember that even when an email or something that has been downloaded has been deleted, it can still be traced on the system. Any data stored on School computers is the School's property and pupils should not assume that files stored on servers or storage media are always private.

Where they have access, Boarders must use laptops and other personal devices and School IT responsibly and in accordance with this Policy and Appendices A, B, C and D below. Using devices for non- academic purposes whilst at Mary Ward House must not interfere with the House routine and 'lights out'. The School is conscious of its duty of care towards the pupils regarding adequate sleep and excessive use of electronic devices can be a cause for concern. Boarding staff at Mary Ward House will exercise their duty of care when necessary, in this regard.

The School recommends that parents only give their child technology to reflect their emotional maturity. The School has adopted different rules for each year group based on pupil maturity and need for pupil mobile

devices to be used by pupils. The rules set out below are regularly reviewed and may change from time to time.

- In the Junior School pupils in years 5 and 6 are able to attend School with mobile phones but must hand these in at the beginning of the School day and these are returned at the end of the School day.
- In the Senior School, pupils in Years 7- 10 hand their mobile phones/devices to reception at the start of the School day and these are returned to them at the end of the School day.
- Subject to clauses 6.7 and 6.8 below, pupils in year 11 may keep mobile phones / devices in their bag, locker or in their blazer pocket. They must be switched off during lessons. They may access their phone in the dining room outside the hours of 12-2pm, in their form rooms and in the School library if the mobile phone/device is on silent mode. They may not access their mobile phones/devices in the corridor.
- Subject to clause 6.7 Pupils in years 12 and 13 are allowed access to their phones/mobile devices in the sixth form centre / areas but should ensure that phones are turned off in lesson time and are not used in the corridors or in the dining room between 12pm and 2pm.

If pupils in the Senior School bring mobile phones or other hand-held devices into School and are allowed access in School, they must register them on the School Guest Wi-fi network.

If a pupil's device can access the internet outside of the School wi-fi network then parents must ensure that their child's own device have appropriate filtering software installed (to filter access via 3G,4G, 5G or GRPS) and anti-virus software. All devices should have parental security enabled with 'safe searching'. Pupils accessing the internet outside the School' network whilst on School premises or otherwise in the care of the School do so at their own risk and must comply with this policy, the School rules, Code of Conduct, the Online Safety Policy and the Behaviour Management Policy and Discipline, Exclusions and Required Removal Policy regarding acceptable use and behaviour.

7. Acceptable Use Rules for Pupils

Pupils must follow the IT Acceptable Use Rules Years 3-6 (Appendix A) or the IT Acceptable Use Rules Senior School and Sixth Form (Appendix B) (as applicable), the Use of the School Issued Device Rules (Appendix C) and the Photographs and Images Rules (Appendix D).

Pupils are responsible for their actions when using technology. Use of technology should be safe, responsible, respectful to others and in accordance with the law. If a pupil is aware of misuse by other pupils or if a pupil is worried about something they have seen on the internet, or on any electronic device, including another person's electronic device, they should talk to a teacher about it as soon as possible.

Any misuse of technology and/or breach of this policy or Appendices will be dealt with in accordance with the Behaviour and Exclusions Policy. However, incidents involving the misuse of technology which are considered to be of a safeguarding and/or bullying nature will be dealt with in accordance with the School's Safeguarding and Child Protection Policy and/or the Anti-Bullying Policy and procedures as appropriate. If a pupil thinks that they might have been bullied or that another person is being bullied, they should talk to a teacher as soon as possible. See the School's Anti-Bullying Policy for information about cyberbullying, bullying associated with prejudice and/or discrimination and e-safety.

Unacceptable use of technology may result in the School restricting access to School IT systems and internet use, a cancellation of a pupil's' email account, refusal of permission to use personal devices on the School premises or while in the care of the School. Confiscation of devices and/or material may be deleted and/or disciplinary action may be taken.

If there are reasonable grounds to suspect that the confiscated device contains evidence in relation to an offence e.g. sharing nudes or semi-nudes pictures and/or videos or upskirting, or that it contains pornographic material of an extreme nature or of a child, the device will be given to the police. See Appendix D for more information.

8. Liability

Pupils bring their own personal device(s) to use at School at their own risk. It is their duty to be responsible for the upkeep and protection of their device(s). Parents should note paragraph 6 above regarding data (3G, 4G, 5G and GPRS).

The School will not be responsible for:
